

Tue 27 feb

B0.05 10h45 **Raoul Van Damme** (UAntwerp, BE)
Herps: the miscalculated tetrapods

Fri 01 mar

B0.32 13h30 **Umilaela Arifin** (LIB, DE)
Connecting the dots in herpetology (of Indonesia): fieldwork, research, and being a female

14h30 **Ioanna Gavriilidi** (UAntwerp, BE)
Reptile cognition

15h00 **Simon Baeckens** (UGent & UAntwerp, BE)
Anolis lizards: the origin and rise of a model system in ecology and evolution

Tue 05 mar

B0.05 10h45 **Olivier Lourdais** (CNRS, FR)
Importance of water constraints in a warming world: insight from European vipers

11h45 **Annelise Folie** (RBINS, BE)
Particularities of early Eocene Indian paleoherpetofaunas before collision with Eurasia

Fri 08 mar

B0.32 13h30 **Loïc Van Doorn & Jeroen Speybroeck** (INBO, BE)
Working for the government: boring or the best job ever?

14h30 **Henrique Leitão** (UAntwerp, BE)
Evolutionary genomics of reptiles and amphibians

15h30 **Lisa Van Linden** (UAntwerp, BE)
How to solve the 'Island Paradox'? Integrating genomics, functional morphology, and wall lizards

Fri 15 mar

O3.14 13h30 **Practicals in herp handling**

Fri 22 mar

B0.32 13h30 **Nathalie Feiner** (LundU, SE)
What lizards can teach us about evolutionary genomics and developmental biology

14h30 **Kim Roelants** (VUB, BE)
Poison from a frog's perspective

15h30 **Giorgio Russo** (VUB, BE)
A tail of two worlds: anatomical and molecular characterisation of glue-spraying tails in geckos

Fri 29 mar

B0.32 13h30 **Pablo Padilla** (ULiège, BE)
Thermal plasticity in a changing climate using invasive frogs as a model

14h00 **Fabien Pille** (ULiège, BE)
Trophic relationships between an invasive frog and native communities

14h30 **Federico Banfi** (UAntwerp, BE)
Working with vipers: the ins and outs of conducting lab research on viperid snakes

15h00 **Eleesha Annear** (UAntwerp, BE)
Not just skin deep: the function of osteoderms
